High-quality, economical, multipurpose panels

Excellent acoustical performance

Class A fire rated

Standard, designer or C.O.M. fabric

Acoustical Wall Panels by IES – 2000, Inc. are the solution for areas that require noise reduction and are available in a variety of models for various applications. The S-2000 Wall Panel is manufactured to the highest standards and is specifically designed as a multi-purpose absorber panel that offers an economical way to resolve reverberant noise problems. Application for the S-2000 panels includes schools, universities, offices, airports, churches, restaurants and any area where excess reverberation is a problem.

The S-2000 Standard Wall Panel provides the ultimate in performance with excellent NRC ratings. Available in four standard thicknesses: 1/2", 1", 1-1/2" and 2" with custom thickness available. S-2000 Panels are constructed with a 6-7# PCF rigid fiberglass absorber core. The edges are chemically hardened and are available in 4 edge profiles. S-2000 panels are available in standard or custom-sizes (up to a maximum of 5' x 10') with custom, designer or C.O.M fabric available.

Installation of the S-2000 panels is simplistic using mechanical clips, adhesive or hook & loop. Consult with IES – 2000, Inc. on the best-suited mounting for your specific application.
