S-4100 Extreme Abuse Wall Panels

Extreme abuse panels

Excellent absorption rating

Class A fire rated

Standard, designer or C.O.M.
fabric

Acoustical Wall Panels by IES – 2000, Inc. are the solution for areas that require noise reduction and are available in a variety of models for various applications. The **S-4100** Wall Panel is manufactured specifically as an extreme abuse absorber panel that offers both excellent absorption and high durability. Application for the S-4100 panels includes gymnasiums, schools, universities, prisons, recreation centers and any area where excess reverberation and high abuse resistance is required.

S-4100 Extreme-Abuse Wall Panels are manufactured using a high impact fire rated perforated rigid PVC vinyl sheet with edges that are bent & welded to provide protection over the 1" or 2" fiberglass absorber. Panels are available in 20+ standard colors with custom colors available. S-4100 panels are available in 1-1/16" and 2-1/16" thickness with sizes up to a maximum of 4' x 8'.

S-4100 panels can be quickly installed using a 2 part mechanical clip.
